# M. Bohlke Corp. Lumber Lowdown

## fine hardwoods from Africa

always sustainably sourced  
& responsibly harvested

Rare, waterfall Bubinga slab that gives a whole new meaning to wide: 66" at its widest point.

Large selection of Wenge slabs, ranging in length (11.5-13.5') and width (14-39").

Khaya (African Mahogany) available in square edge lumber: 4/4, 6/4 & 8/4.

## working wenge

We recommend masks, proper dust collection, leather gloves, & sharp, carbide tools.

- Although dense, it works well with hand & machine tools, however, there is a slight blunting effect on cutting surfaces.
- The fine dust produced when sanding can be irritating to skin, eyes & lungs.
- Gloves are a must when handling rough lumber; splinters can be painful & can become infected. Once surfaced, splintering ceases.

### Square Edge (4/4-14/4)

Afrormosia • Anigre, plain • Anigre, figured  
Avodire • Bibolo • Bosse, figured • Bubinga  
Doussie • Etimoe • Iroko • Mahogany Khaya
