

A large, high-resolution image of European Lacewood veneer. The wood grain is a light to medium orange-brown color, featuring a very distinct and striking ray fleck pattern. The grain runs vertically, and the ray flecks are small, dark, and arranged in a regular, repeating pattern. The overall texture is smooth and uniform.

European Lacewood (Platanus hybrida)

Region: Europe **Figure Type:** Plain **Cut(s):** Quarter

Colors range from a light to medium orangey brown to reddish brown. Very distinct and striking ray flecks. Common applications: Architectural panels, millwork, furniture, yacht and aircraft interiors.
