## From conception to reality.

Using wood to elevate spaces

About six years ago now, John Batchelor, owner of Single Batch Designs in Covington, KY, turned his passion for woodworking into a business producing bespoke furniture. Together with a skilled team, John has produced hundreds of pieces that have shipped to over twenty-five states, Canada, and as far as Singapore; Single Batch prides itself on crafting furniture that reflects customers' personalities, or in this case their business.

The bespoke Bubinga conference table we have featured represents hundreds of hours of work, from the moment it was defined by the customer, through the time it took the Single Batch Designs team to design, source materials, and craft every detail to perfection. Diamond D Industries is a heavy construction specialist company providing complete land access services, from planning and permitting through site restoration and maintenance—laying construction, crane, and timber mats along the way. Thus, the idea for a conference table was born for their home office: to create a "crane/construction mat" representing the business using imported wood with an industrial inspiration.

The finished table is 12' long, 4' wide, and 5" thick, built out of five 1¾ (or 4") thick Bubinga timbers to replicate a real world crane/construction mat (note the unique gaps on the ends of the table with steel running through). While not a technically sophisticated project, it proved logistically challenging with each timber weighing hundreds of pounds. Boring the holes for the ties required precision, as well as skill to avoid blunting bits or igniting the wood, because Bubinga is quite dense. The finished top was paired with a custom industrial inspired and distressed table base. The whole set weighed over 1 ton, taking eight adults to move the table top into place. The end result is a one-of-a-kind functional statement piece, now residing in Diamond D's headquarters in Louisiana.

### M. Bohlke Bubinga inventory available now

- 8/4 Boules
- 8/4, 10/4 FAS&BTR
- 5/4, 6/4, 7/4, 16/4 FAS&BTR Quarter Cut
- Live Edge Slabs ranging from 10-20' in length, 18-64" in width, and 1-2½" in thicknesses.

## Wenge, more than accent wood

Wenge has been a favorite of woodworkers for decades; it is traditionally used as veneer for ornate inlay and paneling, but we say that Wenge can also shine all on its own, especially in highend furniture pieces—and we have the projects to prove it.

Firstly, this species is not much different than working other tropical woods; it is great with both spray applied finishes and handrubbed oil finishes. Wenge is used widely in the highend flooring industry because of its denseness and raw beauty, and is also known in some circles as a great wood for instruments. Secondly, we consider it to be moderately priced for such a unique species that is also so versatile in applications.

And lastly, Wenge is one of the most naturally occurring dark woods in the world and is often a substitute for Ebony. This handsome dark brown, almost black, species works well in many settings when compared to other imported species—black simply fits into most spaces and color palettes well.

The 9'x5' ping pong table (pictured top right) was designed and crafted by Goebel Furniture, based out of St. Louis, MO. The size of the table is of standard regulation proportions, but that's about where the company departed from the "normal" ping pong table; sawn herringbone veneer top with solid edging and Japanese Sen inlay on top and Sen "net," ultimately showcasing Wenge in the bespoke design.

Below the stunning ping pong table, we have a Wenge live edge slab (a rarity in of itself) turned chic computer desk for a residential project before delivery. At M. Bohlke Lumber, we have some slabs from this very same log available, ranging in lengths from 11.5' to over 13'.

In addition to 4/4, 5/4, 6/4 and 8/4 Wenge square edge lumber, we have a select inventory of Wenge live edge slabs, a rare and unique form of lumber for this species. Contact your M. Bohlke Corp. representative to reserve a Wenge slab, or reach out to our team today to get started if you aren't connected with a rep yet. You can also view our Wenge veneer at [mbveneer.com/browse/veneer-catalog](http://mbveneer.com/browse/veneer-catalog)

### New Lumber Arrivals

- Chestnut, Euro** | 4/4, 8/4 FAS&BTR • **Ebony, Amara** | 4/4, 8/4 FAS&BTR
- Ebony, Brown** | Live Edge • **Ipe** | Live Edge • **Oak, Euro Pippy** | 4/4 FAS&BTR
- Oak, Spessart** | 4/4 Boules • **Padauk, African** | 4/4 FAS&BTR
- Paldao** | 4/4 FAS&BTR • **Purpleheart** | 4/4 FAS&BTR
- Santos** | 4/4 FAS&BTR • **Teak** | 4/4, 5/4, 7/4, 8/4, 10/4 FAS&BTR
- Wenge** | 4/4, 8/4 FAS&BTR
