Introducing Beli

Beli #423429-963011A

Beli #423429-963011F

Beli #423577-963012E

Beli #423577-963012K

We are excited to share this newly acquired species with you—our Beli inventory includes over 25 individual slabs to choose from, ranging from 12'-13.62' in lengths, and 20"-39" in widths. These slabs are similar to Zebrano in aesthetics, displaying an incredibly unique color palette that is also akin to a white oak and walnut color mixture. Pictured top right are photos of available slabs that have been sprayed with isopropyl alcohol to show true color and grain.

Eyeck #423431-963014H

Eyeck #423431-963014K

Another recently acquired African species — Eyeck

Eyeck trees grow to nearly 200' tall (60m) and 100" (2.5m) in diameter. Our inventory of this figured reddish brown wood includes lengths around 14.7' with widths ranging from 34" to just shy of 48". These stunning pieces would be the talking point of any environment.
