

Fantastic Olivewood boules

We are excited to share our newly acquired batch of 4/4 and 8/4 Olivewood boules with you. This Mediterranean wood has an attractive grain, clearly seen after being planed in the above right and bottom left photos. Olivewood is known to grow quite old, however many Olive timber products come directly from Olive orchards or farms.

Top grade lumber to fit your needs

Every individual board in our inventory is measured, graded, assigned an inventory stock number, and photographed. Our knowledgeable team paired with our detailed inventory system ensures you are able to select the best material available to fit your needs, every time. For our complete lumber inventory, see page 6 of this newsletter. *Pictured from left to right: African Paduak, Zebrano, Mozambique, Red Gum, European Oak, and Fireland Cherry.*

Sustainably using one of Earth's most beautiful resources to enrich the world around us.
