# Sen

## The perfect blend of elegance and resilience

Sen (also known as Japanese Ash) is an exceptionally attractive wood traditionally used for furniture making and interiors in Japan. Sen can elevate all types of design styles, from classic to contemporary interiors as well as radical musical instruments, like electric guitars and basses.

Sen is also an outlier from other species for a very special reason: its elegant and light color remains steadfast and does not fade over time. In fact, Sen was specifically chosen for our corporate office (pictured above) not only for its looks, but also for its resilience. Our current Sen inventory includes 4/4 FAS&BTR square edge lumber and an impressive inventory of architectural veneer, both plain and figured.

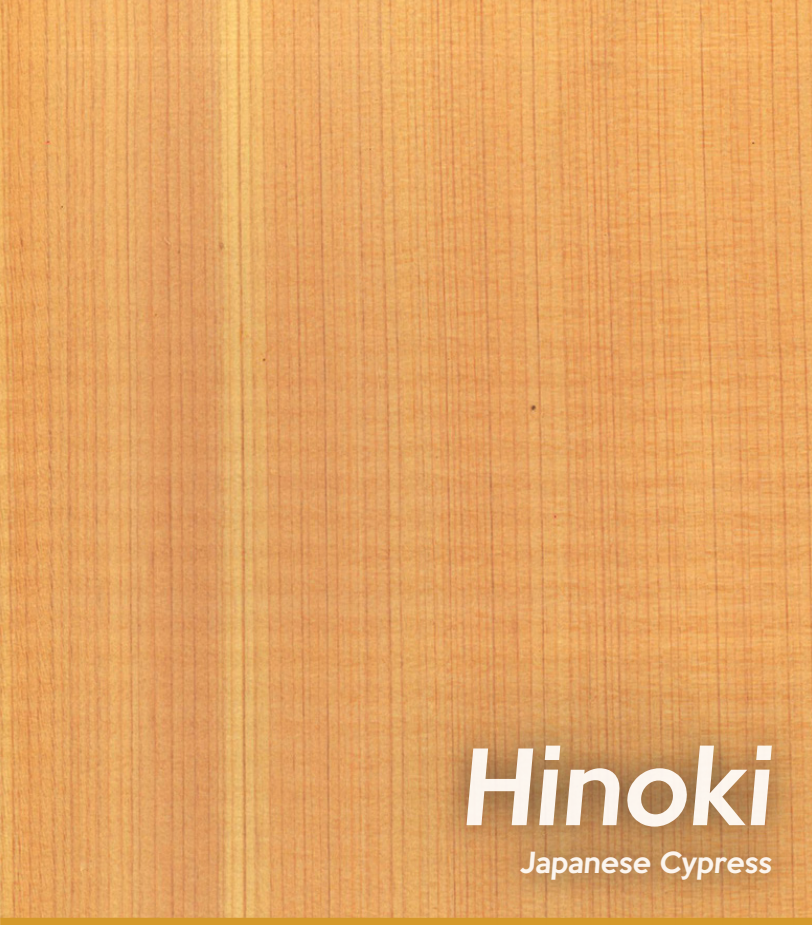

# Tamo Ash
