Lumber

We're obsessive about superior lumber.

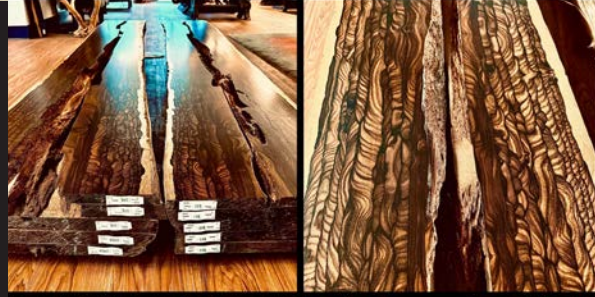

If you're looking for the finest quality and best selection of imported lumber, you have found it. Manfred Bohlke's obsession for superior lumber led to our impressive inventory of square edge lumber, premium boules, and live edge slabs.

Our boutique-style lumber operation gives you access to premium pieces, backed by our 175,000+ square foot veneer facility. While the majority of our lumber is imported and of European variety, we also have specialty domestic species, providing an excellent selection.

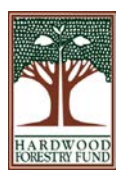

Our commitment to exceptional lumber makes us the trusted choice for architectural millwork, yacht design, instruments, and furniture, bringing the world's most remarkable wood within your reach.

Our lumber services include S2S, Surface & Sand, and SLR.

We also stock indigenous and imported slabs for individual sale. FSC®-certified products are available upon request. Visit lumber.mbvener.com to browse thousands of live edge slabs.

Square Edge • Premium Boules • Live Edge Slabs • Bases

Lumber Species

We specialize in fine quality lumber to complement our veneer. Much of our lumber is cut from veneer quality logs to achieve superior lumber grade for architectural millwork and yacht requirements. FSC®-certified products are available. If a desired species is not listed, please inquire.
